

Are you PCI DSS compliant?

11 Billion

consumer records compromised in the last decade

ICO issued 101 enforcement notices

57 ICO enforcement notices were monetary

930,000

data breaches recorded since 2005

Complying with PCI DSS significantly reduces the risk of a data breach

Many of the 12 PCI DSS requirements relating to the storage, transmission and processing of cardholder data can be automated

Save up to 3 hours

per audit, per device

ISAs and QSAs choose to automate their most critical PCI DSS checks with Titania software, to get an accurate view of their compliance

Uses the CIS Benchmarks

You can run the audit report instantly with Nipper InfraSight and Nipper OmniSight to regularly test the security systems and processes you have in place. This is available for CISCO devices (IOS 12 and IOS 15)
