

## WatchGuard Firewalls

You will need to connect to your WatchGuard firewall using the WatchGuard System Manager software that came with your firewall (you can also download this software using your WatchGuard support login).

The procedure for getting the configuration from the device using WatchGuard System Manager is as follows:

1. Run WatchGuard System Manager.
2. Connect to your firewall device and logon.
3. From the "Tools" menu, select "Policy Manager".
4. Inside Policy Manager, select from the "File" menu "Save" and then "As file..." This will enable you to save your configuration as a file that can be used with Nipper Studio.

Order	Action	Policy Name	Policy Type	Traffic Type	Log	Alarm	From	To	PBR	Port
1	✓	FTP	FTP	Firewall Policy	No	No	Any-Trusted Any-Option...	Any-External		tcp:21
2	✓	WatchGuard Web UI	WG-Fireware-XTM-WebUI	Firewall Policy	No	No	Any-Trusted Any-Option...	Firebox		tcp:8080
3	✓	Ping	Ping	Firewall Policy	No	No	Any-Trusted Any-Option...	Any		ICMP (type: 8, code: 255)
4	✓	WatchGuard	WG-Firebox-Mgmt	Firewall Policy	No	No	Any-Trusted Any-Option...	Firebox		tcp:4105 tcp:4117 tcp:4118
5	✓	Outgoing	TCP-UDP	Firewall Policy	No	No	Any-Trusted Any-Option...	Any-External		tcp:0 (Any) udp:0 (Any)
